MEMORANDUM FOR: DIRECTOR

FROM: AssistantDirector, OCD

SUBJECT: Liaison Channels value 25X1X7 25X6

1. Some months ago AD/OSO, AD/OO and I discussed CIA liaison
25X1X7 with the analysis and agreed that no CIA intelligence or information should henceforth be sent to without advice to OSO. No 25X1X7 new categories of information, in addition to those covered by standing agreements, should be sent to without prior OSO con-25X1X7 currence. Object of this arrangement was to prevent impairment of OSO's bargaining power.

2. In December AD/OSI suggested that it would be well to call a conference of all AD's to establish a uniform approach to the 25X1X7 but he later asked that such conference be postponed. In 25X1C8c the interim approached with the suggestion that it would be helpful to as well as ourselves if we 25X1X7 could get together and arrange a single and uncomplicated channel for the exchange of data. I assured him that we would be glad to discuss the problem after we had gotten our heads together within CIA.

25X1C8c 3. thereupon wrote to and the latter's views are stated in the attached memorandum.

4. Though it seems to me that memorandum does not 25X1C8c require us to take concrete or immediate action, its content should be known to DCI, OSO and ORE.
